QUESTIONS AND ANSWERS

Question	Answer
Q: Is there a place to view receipts connected to a requisition and/or POs?	A: All parts of a transaction are connected (reqs, PO, receipts, voucher). As long as the user has the appropriate role, they can see the related parts of the transaction.
Q: Can an end user click on a "receipt" and see what req/PO it's connected to?	A: Yes. Not exactly sure where in the system (or on what page it is) but the link exists somewhere.
