## DOING WHAT IS BEST FOR THE FUTURE OF CALIFORNIA'S FINANCIAL ENTERPRISE!

Looking for a change? Do you want to make a real difference? Join the team responsible for changing financial management in the State of California.

The Financial Information System for California (FI\$Cal or FI\$Cal Project) is a historic partnership of the Department of Finance, the State Treasurer's Office, the State Controller's Office, and the Department of General Services — to transform the existing budgeting, accounting, procurement, and cash management systems to optimize the financial business management of the State. FI\$Cal will allow the State to operate as a single enterprise for the first time in history.

Join FI\$Cal. With a passion for implementing change and vision for enterprise-wide thinking, you will take a leading role in achieving our goal to bring enterprise resource planning tools and statewide process improvement to the State of California.

### THE FI\$Cal PROJECT IS SEEKING MOTIVATED CANDIDATES WITH THE FOLLOWING CHARACTERISTICS:

- ✧ Ability to exercise a high degree of initiative, independence of action, and originality;
- ✧ Ability to learn rapidly, follow directions, and communicate effectively with others;
- ✧ Ability to work unscheduled excess hours if needed to achieve Project goals;
- ✧ Ability to maintain regular, consistent, and predictable attendance.

### Candidates must also:

- ✧ Demonstrate good judgment, tact, initiative, and diplomacy;
- ✧ Be highly adaptable – and have the ability to adjust to multiple, changing priorities requiring quick turnaround;
- ✧ Be able to work in a matrix team environment, collaboratively and cooperatively with staff from multiple departments and agencies, and numerous vendors.

**DUTIES:** Under the administrative direction of the Transition & Operations Unit Chief, Data Processing Manager IV (DPM IV), the Automated Regression Testing Lead, is responsible for all tasks and functions related to automated regression testing in the Technical Testing Section. The incumbent manages and

coordinates complex technical testing for the Financial Information System for California (FI\$Cal) Enterprise Resource Planning (ERP) System as well as other possible departmental source system interfaces by working closely with other divisions of the Department of FI\$Cal and the departmental system liaisons. The incumbent is responsible for technical testing, which includes but may not be limited to automated regression testing, performance testing and system integration testing.

The Automated Regression Testing Lead works independently as a high level technical specialist and is responsible for tasks that involve the automated regression testing for the FI\$Cal System and accompanying interfaces. The incumbent ensures adherence to the Department's business and technology vision, goals and objectives, coordination of activities within the section/unit, and the applicable responsibilities/activities with the rest of the FI\$Cal team.
