DOING WHAT IS BEST FOR THE FUTURE OF CALIFORNIA'S FINANCIAL ENTERPRISE!

Looking for a change? Do you want to make a real difference? Join the team responsible for changing financial management in the State of California.

The Financial Information System for California (FI$Cal or FI$Cal Project) is a historic partnership of the Department of Finance, the State Treasurer's Office, the State Controller's Office, and the Department of General Services — to transform the existing budgeting, accounting, procurement, and cash management systems to optimize the financial business management of the State. FI$Cal will allow the State to operate as a single enterprise for the first time in history.

Join FI$Cal. With a passion for implementing change and vision for enterprise-wide thinking, you will take a leading role in achieving our goal to bring enterprise resource planning tools and statewide process improvement to the State of California.

THE FI$Cal PROJECT IS SEEKING MOTIVATED CANDIDATES WITH THE FOLLOWING CHARACTERISTICS:

- ✧ Ability to exercise a high degree of initiative, independence of action, and originality;
- ✧ Ability to learn rapidly, follow directions, and communicate effectively with others;
- ✧ Ability to work unscheduled excess hours if needed to achieve Project goals;
- ✧ Ability to maintain regular, consistent, and predictable attendance.

Candidates must also:

- ✧ Demonstrate good judgment, tact, initiative, and diplomacy;
- ✧ Be highly adaptable – and have the ability to adjust to multiple, changing priorities requiring quick turnaround;
- ✧ Be able to work in a matrix team environment, collaboratively and cooperatively with staff from multiple departments and agencies, and numerous vendors.

DUTIES: Under the general direction of the Business Intelligence Services (BIS) Section Chief (Data Processing Manager III [DPM III]), the Systems Software Specialist II (SSS II) (Technical), ETL Developer, has the responsibility for designing, developing, implementing and supporting the Extract, Transform and Load (ETL) solutions for the Business Intelligence (BI) Applications for FI$Cal. The SSS II is also responsible for designing, developing, implementing and providing production support for the ETL batch processes.

The ETL Developer will be working in a highly complex technical specialist position and will provide technical services for complex Information Technology (IT) BI and data analytics applications, conduct proof-of-concepts and research the industry trends and technology solutions for meeting the business needs/requirements.

The ETL Developer works closely with the departmental business stakeholders and other divisions of the Department of FI$Cal and is responsible for delivering the Structured Query Language (SQL) scripts, ETL scripts, ETL batch processes and other BI technical components to meet the business needs while ensuring adherence to FI$Cal business and technology vision, goals, and objectives. The ETL developer analyzes the performance issues associated with the Business Intelligence (BI) applications and/or the ETL processes, either independently or in collaboration with the BI Technical Lead, identifies the options to improve the performance and implements the solutions identified.
