DOING WHAT IS BEST FOR THE FUTURE OF CALIFORNIA'S FINANCIAL ENTERPRISE!

Looking for a change? Do you want to make a real difference? Join the team responsible for changing financial management in the State of California.

The Financial Information System for California (FI\$Cal) is a historic partnership of the Department of Finance, the State Treasurer's Office, the State Controller's Office, and the Department of General Services — to transform the existing budgeting, accounting, procurement, and cash management systems to optimize the financial business management of the State. FI\$Cal will allow the State to operate as a single enterprise for the first time in history.

Join FI\$Cal. With a passion for implementing change and vision for enterprise-wide thinking, you will take a leading role in achieving our goal to bring enterprise resource planning tools and statewide process improvement to the State of California.

FI\$Cal IS SEEKING MOTIVATED CANDIDATES WITH THE FOLLOWING CHARACTERISTICS:

- ✧ Ability to exercise a high degree of initiative, independence of action, and originality;
- ✧ Ability to learn rapidly, follow directions, and communicate effectively with others;
- ✧ Ability to work unscheduled excess hours if needed to achieve Project goals;
- ✧ Ability to maintain regular, consistent, and predictable attendance.

Candidates must also:

- ✧ Demonstrate good judgment, tact, initiative, and diplomacy;
- ✧ Be highly adaptable – and have the ability to adjust to multiple, changing priorities requiring quick turnaround;
- ✧ Be able to work in a matrix team environment, collaboratively and cooperatively with staff from multiple departments and agencies, and numerous vendors.

DUTIES: Under the general supervision of the Systems Software Specialist III (Supervisor), the Systems Software Specialist (SSS) II (Technical) provides high-level technical leadership and expertise in server administration. The incumbent leads the server hardware and software evaluation, installation, configuration, test, documentation, maintenance and operations; provides expertise in server virtualization software and Active Directory services; and demonstrates proficiency in installing, configuring and troubleshooting blade servers, storage area network equipment, operating systems, remote access solutions, Dynamic Host Control Protocol, Domain Name Services, File and Print services, data backup and recovery.

The incumbent provides expert level technical expertise, advice and guidance to IT staff and is responsible for the installation, configuration, testing, maintenance and troubleshooting of the more complex IT systems as well as assisting FI\$Cal Department teams with any issues encountered by the use of the aforementioned systems. The incumbent is responsible for supporting the entire FI\$Cal Department with IT services from the planning through operational phases of the FI\$Cal System implementation.
